REPORT OF THE COUNCIL,

To the Members, at the Annual General Meeting, Wednesday, February 28th, 1877.

I. SESSION 1875–76.

PUPILS AND FEES.

The entire number of Pupils during this Session was 1615, being an increase of 6 on that of the preceding Session. Of these, 847 were Students in the College, and 768 Pupils in the School. Of the Students 345 belonged to the Faculty of Medicine, 108 being new Students: in the Faculties of Arts and Laws and of Science there were 502 Students; in these Faculties there were 262 new Students. The largest number of Boys in the School in any one Term was 640.

The Fees received (exclusive of those for Clinical Instruction) amounted to £28,443 2*s.* 0*d.*, being £755 2*s.* 6*d.* more than in Session 1874–75. This sum consists of the following items:—Fees for attendance on the Classes of the Faculty of Medicine, £7345 5*s.* 6*d*; Fees for attendance on the Classes of the Faculties of Arts and Laws and of Science, £6403 19*s.*; School Fees, £14,618 16*s.* The total payments to Professors, Teachers, and Masters amounted to £19,231 14*s.* 3*d.*, leaving £9211 17*s.* 9*d.* for the College portion, which was thus greater by £123 15*s.* 5*d.* than in the preceding Session. In addition to the above-stated amounts, the sum of £2401 18*s.* (being an increase of £14 10*s.* on the previous year) was received for Clinical Instruction in the Hospital, making a total of £9747 3*s.* 6*d.* paid by Students of the Faculty of Medicine in the Session. The Clinical Fees were, as usual, devoted to the support of the Hospital, no part of them being taken by the Medical Officers.

SCHOOL.

The vacancy in the Head Mastership caused by the death of Professor Key, was filled by the appointment on March 11 of Mr. H. Weston Eve, M.A., late Fellow of Trinity College, Cambridge, a gentleman eminently qualified to direct and superintend instruction in the numerous branches of study pursued in University College School.

Mr. Eve entered on his duties at the commencement of the Summer Term. During the Michaelmas term the Head Master submitted to the School Committee a scheme embracing two objects, viz. systematizing and increasing the salaries of the Assistant Masters; and, secondly, placing certain Masters in more intimate and permanent relations with the boys by appointing them Consulting Masters or Tutors.

This improvement in the position of the Masters cannot, of course, be effected without a considerable increase of expenditure. To meet

this the School Fee will, at the commencement of next Session, be raised from eight pounds to eight guineas. The Council, acting on the recommendation of the School Committee, have adopted this scheme, and feel great pleasure in being thus able to meet the wishes of the Masters, who have contributed so largely to the success of the School.

The Council are glad to observe from the Head Master's Report that the discipline and tone of the School maintain their satisfactory condition. The chief improvements mentioned in this Report are the holding of Masters' meetings for the discussion of questions connected with work and discipline; the extension of Science teaching by the formation of elementary classes for the younger boys; and an arrangement for receiving new pupils for examination and classification at or near the end of each Term, as well as on the usual entrance day.

Mr. W. W. Ball has offered an annual prize for an English Essay, and Mr. Mavitta one for Mechanical Drawing. On the recommendation of the Head Master, both offers have been accepted.

The following Table shows that the increase in the number of boys in the School continued without interruption up to the close of last Session:—

	1st Term.	2nd Term.	3rd Term.	Average for the year.
1871–72.....	501	524	530	518
1872–73.....	508	542	567	539
1873–74.....	540	574	575	563
1874–75.....	560	582	589	577
1875–76.....	607	622	640	623

From the Tables in the Vice-Master's Report it appears that out of a total of 717 boys, 60 were entered in the Black Book last Session, the total number of entries being 83. This satisfactory statement of the general condition of the discipline of the School receives frequent confirmation in the Reports of the Assistant Masters in relation to their respective classes.

The following list of distinctions obtained by former pupils of the School is selected from a much longer list, compiled by the Vice-Master, and prefixed to the printed "School Honour List."

GENERAL FINANCES.

The surplus of receipts over expenditure for this Session was £820 5*s.* 2*d.*, although the sum expended in house and furniture repairs, and in providing new furniture and fittings, amounted to £2834 16*s.* 4*d.*, being upwards of £1130 more than the corresponding expenditure in the preceding Session. This excess of expenditure was occasioned by the refitting of the Natural History Museum, the fitting-up of the Zootomical Laboratory and the Curator's Rooms, additions and alterations to the Physics Department, and the fitting and furnishing of the new School Rooms and enlargement of Medical Students' Cloak Room. The above-mentioned surplus has enabled the Council to reduce the debt on the last addition to the South Wing from £3761 16*s.* 11*d.* to £2941 11*s.* 9*d.* The additional liabilities on this fund amount to about £500.

II. THE CURRENT SESSION.

The entries of Students to February 6th have been as follows:—In the Faculty of Medicine, 321, of whom 82 are new Students; in the Faculties of Arts and Laws and of Science, 423, of whom 208 are new Students: in the School, in Michaelmas Term, 594, of whom 110 were new pupils; in the present Term, 614, 95 being new pupils. Compared with the entries to February 15th last year, these returns show a decrease of 3 in the Medical Classes, and of 6 in the Arts, Laws, and Science Classes; in the School a decrease of 13 in the Michaelmas Term, and an increase of 2 in the present Term.

The decrease in the number of new Medical Students this Session is 10; in the other Faculties, however, there is an increase of 5.

The College Fees received to February 6 are £4544 8*s.* in the Faculty of Medicine, and £6470 6*s.* in the Faculties of Arts and Laws and of Science. These sums are an increase of £92 8*s.* in the Medical Fees, and of £645 19*s.* in the other Faculties, as compared with the corresponding receipts to February 15th last year.

In the last Session the College sustained the loss of an unusually large number of Professors. By death or resignation vacancies occurred in no fewer than six Professorships.

By the death of Professor Key, as mentioned in the last Report, the Chair of Comparative Grammar was left vacant. The vacancy has been announced, and candidates for the Professorship have been invited to forward their applications. A similar course has been adopted with respect to the Professorship of Chinese. Dr. Haas has accepted the Chair of Sanskrit vacated by Professor Eggeling.

The resignation of Professor Malden, which had been postponed during the previous year, took effect at the close of last Session. On June 24th the Rev. William Wayte, M.A., was appointed as his successor.

The retirement of Professor Malden, who for forty-five years had been one of the most distinguished and most useful members of the Professorial Staff, would under any circumstances have called for special comment. His ripe scholarship, happily combined with a rare power of imparting knowledge, made his lectures in the highest degree interesting and valuable to those who had the good fortune to listen to them. His vast learning and scholarly tastes did not deter him from patient efforts to raise the standard of culture among students whose previous training had, in many instances, been far from satisfactory. The loss of so eminent a teacher might have been

less severely felt had he survived to assist by his counsels the College he had so long and so devotedly served. Such, however, was not the case. He died after a short illness, on July 4th, within a month of the close of his lectures. The Council understand that a fund is being raised to perpetuate his memory in the College by a Scholarship and Medal, a large body of subscribers having decided upon this means of expressing their feelings of gratitude and affection towards their former teacher and friend. It is believed that a portrait of Professor Malden will also be presented to the College.

Mr. Alfred Goodwin, M.A., Fellow of Balliol College, Oxford, has been appointed to the Professorship of Latin, which was resigned by Professor Robinson Ellis at the close of last Session.

The vacancy in the Slade Professorship of Fine Art, mentioned in the last Report, has been filled by the appointment of Mr. A. Legros.

As stated in an earlier portion of the Report, Mr. H. W. Eve, M.A., late Fellow of Trinity College, Cambridge, has been appointed Head-Master of the School.

During the Summer Vacation the death was announced of Mr. R. C. Childers, the first Professor of Páli and Buddhist Literature, at the early age of 37.

Professor Jevons, whose appointment to the Chair of Political Economy was mentioned in the last Report, entered upon the duties of his office at the beginning of the Session.

At the suggestion of the Professors interested, Mr. Robin has been appointed, for the current Session, their Assistant in the Work Room which is intended for the use of the Students in the Classes of Mathematics, Physics, Engineering, and Drawing.

LADIES' CLASSES AT THE COLLEGE.

The attendance at the Classes belonging to the Ladies' Educational Association, which meet here and are taught by Professors and other Teachers attached to the College, though not equal to that during last Session, is still very satisfactory.

The regular College Classes of Political Economy, Jurisprudence, Geology, and Roman Law are still open to Ladies; and permission has this Session been granted them to enter the Class of Mineralogy and the Higher Senior Class of Mathematics.

THE FIELDEN ENDOWMENT.

Since the date of the last Report an important provision has been made for the encouragement of the study of Modern Languages. Mr. Samuel Fielden has placed in the hands of the Council £4000 5 per cent. Preference Stock, a moiety of the dividends on which is to be applied to the endowment of the Professorships of German and French, and the remainder to providing prizes in the Senior and Junior Classes of these subjects.

The Council feel that this generous gift will be of the highest value in promoting the thorough study of the German and French Language and Literature.

THE BARLOW BEQUEST.

At their Session in December the Council were informed of the bequest to the College by the late Dr. Henry Clark Barlow of all his

Library of works of Dante and books relating to Italian History and Literature, together with his collection of drawings and other works of art, chiefly illustrative of Dante. This was accompanied by the bequest of a sum of £1000 Consols free of Legacy Duty, the dividends of which are to be applied to the delivery of a public annual course of Lectures on the "Divina Commedia," free to both sexes; the course to consist of not less than twelve Lectures; the Lecturer to be appointed by the Council for three years, with power to re-elect the same person.

ATCHISON SCHOLARSHIPS.

The amount to be received by the College under the will of the late Surgeon-Major Atchison is now ascertained to be about £3700. This sum, however, remains in the hands of the Court of Chancery pending the preparation of a scheme for the application of the income of the Fund.

The method of giving effect to this Bequest is now under the consideration of the Faculty of Medicine.

GROTE ENDOWMENT.

It will be remembered that Mr. Grote, the late President of the College, bequeathed a sum of £6000 for the endowment of the Chair of Mental Philosophy, which bequest was to be received by the College on the death of Mrs. Grote. That lady has, however, expressed a desire that the endowment should be made available immediately. The Council have gratefully accepted this new proof of Mrs. Grote's warm interest in the welfare of the College, of which from its commencement her late husband was so distinguished a supporter.

THE LIBRARIES.

The Chinese Library has been increased by the receipt from Sir John Davis of a valuable collection, comprising more than fifty volumes, of Dictionaries, Grammars, and other works relating to China.

A valuable donation of books was presented to the College last Session by Mr. Charles Parkes, in accordance with the wishes of his brother, the late Professor E. A. Parkes.

A very important addition has been made to the department of Law through the liberality of Mr. Quain, who has presented to the College the Law Library of the late Mr. Justice Quain.

The other principal donations of books during the past year are from the following:—The Lords Commissioners of H.M. Treasury, the Lords Commissioners of the Admiralty, the Secretary of State for India, the Trustees of the British Museum, the Royal Society, the Royal Asiatic Society, the Royal Institution of Great Britain, the Royal Medical and Chirurgical Society, the Medical Society of London, the Royal Institute of British Architects, the Society of Antiquaries, the Pathological Society, the Asiatic Society of Bengal, the Statistical Society, the Sanskrit Text Society, the Zoological Society, the Obstetrical Society, the Manchester Statistical Society, the Pharmaceutical Society, the Clinical Society, the Physical Society, the New Shakspeare Society, the Smithsonian Institution, the Quekett Microscopical Club, Samuel Sharpe, Esq., J. O. Halliwell-Phillipps, Esq.,

Francis Marcet, Esq., H. Pratt, Esq., J. F. Streatfeild, Esq., Professors Ch. Heath, Sanderson, F.R.S., Sharpey, F.R.S., Erichsen, F.R.S., Robinson Ellis, Morley, and Berkeley Hill, Drs. A. Blair, Tilbury Fox, G. V. Poore, and F. T. Roberts.

PEEL MEMORIAL FUND.

The income of this Fund in 1876 was expended in the purchase of books &c. presented to the Liskeard Literary and Scientific Institution, the Walworth Literary and Scientific Institution, and the Walford Public Library.

The Balance of the Dividends now in hand is £60 8*s.* 4*d.*

CLINICAL FEES.

On the 4th of November a deputation of the Medical Committee waited on the Council to urge on them that the time had now come for assigning a due share of the receipts from Students for Clinical Instruction to the Clinical Teachers themselves.

The matter was referred to a Committee, who, on the 2nd of December, reported to the Council that in their opinion the time had now arrived when the Clinical Teachers should share in the Fees paid for Clinical Instruction, the whole of which have hitherto been devoted to the support of the Hospital; and that two thirds would be a fair proportion to be paid to them by the College, the remaining one third to continue to be paid by the College to the Hospital in aid of its funds. The Committee further recommended that such an arrangement should be accompanied by a reservation of the right of the College to modify it in the event of altered circumstances rendering such modification necessary or desirable.

This Report was adopted by the Council; and it was decided that the arrangement as to the Fees should take effect from the commencement of the present Session.

HOSPITAL.

The total receipts for the year ending October 31st, 1876, including Legacies and the balance from the previous year, amounted to £16,103 9*s.* 5*d.*; the gross expenditure was £16,338 16*s.* 11*d.*, consisting of the following principal items:—£2070 9*s.* on account of debts of the previous year, £11,132 4*s.* 9*d.* for expenses of the current year, and £3135 2*s.* 6*d.* invested.

The balance at the end of the financial year was £777 17*s.* 4*d.*, and the then outstanding debt amounted to £2041, being rather less than the amount of last year.

The Right Hon. Lord Aberdare presided at the Festival on February 17th, 1876, when the amount subscribed was £1105 13*s.* The ensuing Anniversary will take place on Wednesday, May 16, when Sir H. Thompson has kindly undertaken to preside.

The fourth Hospital Sunday in London was in June 1876, when collections amounting, with some additions from other sources, to £27,042 were made. The sum allotted to University College Hospital by the Committee to which the duty of distributing this money was entrusted was £875, or less by £55 than the sum received last year.

Return of Services of the Members of Council from February 9, 1876, to February 7, 1877, inclusive.
